

Israel Calderón de la Cruz

.NET Mobile Developer

Montemorelos, N.L., Mexico icalderond@outlook.com
linkedin.com/in/icalderond github.com/icalderond

PROFESSIONAL SUMMARY

.NET Mobile Developer focused on building reliable mobile applications within the Microsoft ecosystem. Experienced in clean architecture, cross-platform development with .NET MAUI and Xamarin.Forms, and integrating AI-assisted development workflows using tools like Windsurf and GitHub Copilot. Skilled in collaborating across engineering and product teams managing work items, PBIs, and requirements in Azure DevOps, reviewing designs in Figma, and documenting solutions in Confluence to deliver mobile features efficiently. Based in Montemorelos, Mexico. Graduate of Instituto Tecnológico de Nuevo Laredo.

PROFESSIONAL EXPERIENCE

.NET Mobile Developer Nov 2021 – Present
Atos — Monterrey, Mexico

- Designed and implemented reusable, high-performance custom controls to enhance UI consistency and maintainability across the main application.
- Developed and integrated complete application workflows using .NET MAUI, ensuring smooth navigation, data handling, and cross-platform compatibility.
- Collaborated with cross-functional teams managing PBIs and tasks in Azure DevOps, reviewing designs in Figma, and documenting technical solutions in Confluence.
- Integrated AI-assisted development workflows using Windsurf and GitHub Copilot to accelerate development and improve code quality.
- Implemented MCP integrations connected to Atlassian, Azure DevOps (work items), and Figma to optimize cross-disciplinary collaboration.

.NET Mobile Developer Jul 2021 – Oct 2021
Enroute — Monterrey, Mexico

- Collaborated on adding new modules to a UWP application.
- Implemented the Syncfusion library to improve application screens.

SKILLS

- .NET MAUI Xamarin
- Xamarin.Forms C# .NET
- ASP.NET Core Azure
- SQL Server Clean Architecture
- MVVM XAML REST APIs
- Git Android iOS UWP
- Docker Unit Testing
- Windsurf GitHub Copilot
- Generative AI Figma
- Azure DevOps JetBrains Rider
- Confluence MCP SQLite
- Push Notifications
- Authentication
- Cross-platform Dev

EDUCATION

B.S. Computer Engineering
Instituto Tecnológico de Nuevo Laredo
2010 – 2014

Spanish Native
English Professional Working

HONORS & AWARDS

Xamarin.Android Workshop Instructor
ITNL — XXV Simposium Internacional ISC
November 2016

Senior .NET Mobile Developer

Aug 2020 – Sep 2021

Soft/M — Monterrey, Mexico

- Built a Xamarin.Forms application from scratch for the healthcare sector.
- Implemented the complete UI based on InVision designs.
- Integrated Google services, analytics, push notifications, and authentication.
- Consumed REST APIs to retrieve and display medical laboratory results.
- Created custom controls to display medical laboratory results.

.NET Mobile Developer

Jun 2019 – Jun 2020

Quarksoft — Mexico City, Mexico

- Built modules for a mobile application used to register gas station equipment and failures.
- Created Detail-Level Design documents to describe technical requirements and component implementations.
- Consumed and modified REST APIs connected to a .NET server.
- Implemented custom maps to display routes for attending service requests.

.NET Mobile Developer

Jul 2018 – Jun 2019

Herbalife Nutrition — Independent Distributor — Guadalajara, Mexico

- Collaborated in the development of backend modules for different applications.
- Built an iOS and Android application using Xamarin.Forms.
- Integrated multiple application layers including Web APIs and data models.

Software Developer

Jun 2014 – Jul 2018

Ermilo E. Richer Forwarding Agency — Nuevo Laredo, Mexico

- Developed and maintained internal mobile and web applications using C# and .NET.
- Provided technical support and analyzed business processes.

TEACHING & VOLUNTEER EXPERIENCE

Programming Instructor

2013 – Present

Instituto Tecnológico de Nuevo Laredo

- Teach OOP with C#, WPF with MVVM pattern, XAML, and data binding at annual symposiums.
- Instructor for "Android with Xamarin Studio and C#" workshop (2016) — teaching Android app fundamentals, UI design, and deployment.
- Delivered workshops on XAML application development (2015) and OOP in C# (2013).

XAML Application Development Workshop Instructor

ITNL — XXIV Symposium International
ISC

November 2015

OOP in C# Workshop Instructor

ITNL — XXII Symposium International ISC

October 2013
